

Road Map to Trailhead
Killamacue Lake Trail
 Wallawa-Whitman National Forest - Baker District

From Hwy 30 in the town of Haines, turn west across the railroad tracks onto paved Rock Creek Road. Drive 5.5 miles west (past the old townsite of Rock Creek at Foothill Road), where the pavement soon ends.

Continue on the graveled section of Rock Creek Road for 2.2 miles, to where the gravel ends and the dirt, high-clearance road begins. Follow the high-clearance road (which becomes Road 5520 at the Forest boundary) for 2.0 miles to the unmarked trailhead — on the right, just before the road crosses over Killamacue Creek.

NOTE: The last 2 miles of Rock Creek Road (Road 5520) before the trailhead are deeply rutted and extremely rocky. When dry, it is passable by a high-clearance vehicle using great care — but 4-wheel drive will be good backup insurance in this section.
