

Road Map to Trailhead

Twin Lakes Trail

Wallowa-Whitman National Forest - Baker District

From Highway 7, just east of the old town of McEwen, turn north onto Deer Creek Road (aka County Road 656, which will turn into Road 6550 at the forest boundary) and drive 4 miles on this main gravel route to a road junction.

Go straight at the junction onto Road 030 and follow it for 2.5 miles to the first Twin Lakes Trailhead sign. This is the old trailhead for the now unmaintained trail up Lake Creek. Note that this last 2.5 miles of road has some washouts and rocky areas that require a high-clearance vehicle.

To get to the new trailhead, continue up the steep hill and curve around for another 0.5 miles to the second trailhead sign.
