

**Road Map to Trailhead**  
**Hoodoo Canyon Trail**  
 Colville National Forest - Kettle Falls District

From Hwy 395, about 6 miles north of Kettle Falls and 200 yards south of the Kettle River Campground turnoff, turn west onto Deadman Creek Road (Forest Road 9565). Follow this road for 8.6 miles, bearing left on the main gravel road at each unsigned junction. Look for a wide grass meadow on the south side of Road 9565 and the trailhead sign and parking in the meadow.

Coming from the west on Hwy 20, turn (left) north on Albian Hill Road (Road 2030) on a sweeping horseshoe curve, 4.1 miles east of Sherman Pass. Drive for 3.8 miles north on Road 2030 to its junction with Forest Road 9565 (Deadman Creek Road) on the right (east). Follow Road 9565 downhill to the east for 8.8 miles to the wide grass meadow and trailhead on the right (south).

Though rough in spots, Deadman Creek Road is suitable for any passenger car.
