

Road Map to Trailhead

Thirteenmile Mountain Hike

Colville National Forest - Republic District

From Republic WA, drive about 7.0 miles east on Highway 20. Turn south on gravel Hall Creek Road and follow it for about 8.0 miles to a prominent "T" — where one turns left onto Forest Road 2054 (aka Thirteenmile Road). Follow this good gravel track for about 5.3 miles, over a low pass, and down to an unsigned turnoff on the left (east) leading into the wide gravel parking area of the Cougar Trailhead.

The road to the trailhead is gravel all the way, but with many potholes, so travel is slow — however it should be passable by any passenger car with care. NOTE: The shortcut route down Refrigerator Canyon is washed out and this road is permanently closed on the north.
